Directory for patch files

Directory for patch files

by **C. V. Reynolds** » Sun Aug 23, 2009 11:22 am

Hi. I think it would be nice if VBA-M allowed the user to choose a directory for patch files (IPS, UPS, etc) instead of making the user place them in the folder containing ROM images. At the least, it should contain a default directory that is stored alongside the EXE like the battery and saves folders.

itd be better still if the patches could be read from the archive.
